

MUHAMMAD YAHYA ALVI

Software Engineering Student

Karachi, Pakistan | 0318 8798003 | yahyaalvi727@gmail.com | github.com/Muhammad-Yahya-Alvi | portfolio-six-mauve.vercel.app

PROFILE

Software Engineering student (SMIU) with hands-on project experience across full-stack web development, backend systems, and desktop application development. Has independently designed, built, and deployed multiple end-to-end projects, including a Spring Boot/React platform with AI-assisted data mapping and a serverless AI chatbot integrated with the Google Gemini API. Comfortable working across the stack: Java, C++, JavaScript, MySQL, and cloud/container deployment.

EDUCATION

Bachelor of Science in Software Engineering (BSSE) 2025 - Present
Sindh Madressatul Islam University (SMIU)

DAE in Electrical Engineering 2024 - Present
Government College of Technology (GCT)

Intermediate 2023 - 2025
Pechs Education Foundation Government Degree Science College

Matriculation 2020 - 2023
Happy Palace Group of Schools

PROJECTS

ERP Bridge — Universal ERP-to-SAP Migration Platform

Spring Boot · React · Docker Compose · AI-Assisted Field Mapping

- Designed and built an end-to-end migration platform (for a hackathon) that maps fields between legacy ERP systems and SAP using AI-assisted matching.
- Developed a Spring Boot backend and React frontend, containerized with Docker Compose for one-command, multi-service deployment.

YAX AI — Cyberpunk-Themed AI Chatbot

Express.js · Google Gemini API · Vercel (Serverless) | Live: yax-ai.vercel.app

- Built a full-featured AI chatbot web app on Express.js, integrating the Google Gemini API for conversational responses.
- Implemented chat history, Markdown rendering, voice input, PDF export, and a light/dark theme toggle; deployed as a serverless app on Vercel.

PacXon Java — 2D Arcade Game

Java · Java Swing

- Implemented core game mechanics from scratch: trail drawing, flood-fill area capture, and death/invulnerability logic.
- Built a complete screen-state system, remappable controls, difficulty settings, and a save/load system via a custom SaveManager class.

Personal Portfolio Website

HTML · CSS · JavaScript | Live: portfolio-six-mauve.vercel.app

- Built a responsive portfolio site featuring a custom cursor with particle trail, ripple/hover effects, and a typewriter splash intro.
- Implemented tab-based navigation and a mobile hamburger menu for cross-device usability.

EXPERIENCE

Megatech — Group of Design, Marketing & Innovation 2 Months

TECHNICAL SKILLS

Programming Languages: Java, C++, JavaScript

Frontend: React, HTML, CSS, JavaScript

Backend: Spring Boot (Java), Express.js (Node.js)

Databases: MySQL

APIs / AI: Google Gemini API, AI-assisted field mapping (ERP Bridge)

Tools & Platforms: Git, GitHub, Docker, Vercel, VS Code

LANGUAGES

Urdu, English

REFERENCE

Available upon request.
